

Di-LOG
...measurably better

DL7203 - Lamp Tester

The DL7203 is a handy test instrument for swift fault finding in all gas-filled low pressure and high pressure discharge lamps and fluorescent tubes.

The DL7203 safely tests fluorescent lamps, the test is carried out without disassembling the lamp from the fitting which can be tested in-situ .

Key Features

- Tests Fluorescent Tubes
- High/Low Pressure Sodium
- Neon & Mercury Vapour
- Metal Halogen
- Integrated Single Pole Voltage Tester
- Optical and Acoustic display for Voltage and Continuity

DL7203 - SPECIFICATIONS

Specifications

Range	Resolution
Live conductor Indication	60-250V AC, 40-60Hz
Continuity Varification	0.5M Ω (test current <7 μ A)
Lamp Tester Voltage	3kV / 160kHz (Test current 2007 μ A)
Measure Category	CAT II 250V

Supplied with 1 x 9v battery
Dimensions: 189(H) x 26.5(W) x 50(D) mm
Weight: 60g

**All Di-log Lamp Testers
supported by a
2 Year Warranty**

In conformance with CE safety
standard, CAT II 250V

Di-log Test Equipment
Unit 28 Wheel Forge Way
Trafford Park
Manchester
