

DL9319BT

TRMS 1000V Bluetooth Multimeter

The Di-LOG DL9319BT is a rugged, high-performance digital multimeter built for professionals working in industrial, commercial, and residential environments. It offers True-RMS accuracy and a wide range of measurement capabilities including voltage, current, resistance, capacitance, frequency, and temperature. Its IP67-rated casing and CAT IV safety rating ensure reliable operation even in the harshest conditions.

With integrated Bluetooth connectivity, the DL9319BT connects to a dedicated mobile app, allowing users to view, log, and share live test data remotely. It also features a built-in ultra-bright LED flashlight and a backlit rotary dial, making it ideal for safe and efficient testing in dark or confined spaces. Whether you're fault-finding, performing diagnostics, or conducting routine maintenance, this multimeter delivers precision, durability, and smart functionality in one compact, heavy-duty package.

Key Features:

- **Bluetooth Connectivity** - Real-time data capture and remote viewing via mobile app for enhanced workflow efficiency.
- **True-RMS Accuracy up to 1000V** - Ensures reliable readings even with non-linear loads such as LED drivers.
- **Low Z Function** - Minimizes ghost voltage interference for more accurate and reliable measurements in electrically noisy environments.
- **Multi-Function Measurement Capabilities** - Measures 1000V AC/DC, 10A Current, 60MΩ Resistance, 6000μF Capacitance, 10kHz Frequency, and Temperature.
- **IP67-Rated & CAT IV Safety** - Fully sealed against dust and water,

Specifications

Measurement	
AC Voltage	1mV - 1000V AC
AC+DC Voltage	1mV - 1000V AC+DC
DC Voltage	1mV - 1000V DC
LowZ (Low Impedance)	1mV - 1000V AC
AC Current	0.1μA - 10.00A AC
DC Current	0.1μA - 10.00A DC
Resistance	0.1 Ω - 60 MΩ
Continuity	<300Ω @ <1mA
Capacitance	10pF - 6000μF
Frequency	0.001Hz - 9.99kHz
Temperature °C	-20°C to 760°C
Temperature °F	-4°F to 1400°F
Diode test	1mA typical 3V DC
Other Information	
Supplied with	Test Leads, K-Type Thermocouple & Carry Case
Power supply	4 x 1.5V AAA alkaline battery (supplied)
Dimensions	170 x 75 x 48 mm
Weight	386g

All Di-LOG Multimeters
supported by a
2-Year Warranty
